

# HOW LONG WILL YOU BE GONE?

Even ten minutes could be *too long* for a pet left in the car on a hot day. By then, the temperature inside the car could reach 160°. That's hot enough to cause a dog to suffer heat stroke. Within moments, it could sustain permanent brain damage. If emergency care is not given, *your pet could die.*

The short stop you plan to make at the store could stretch to 15 minutes or more before you know it. Your mistake could cost your dog its life. Leaving the windows cracked won't cool the car enough to protect your pet.

Of course your dog would like to go with you everywhere, but when the weather turns warm, better park your pet at home.
